

Trusted Sites

Adding your website to the trusted sites on your computer.

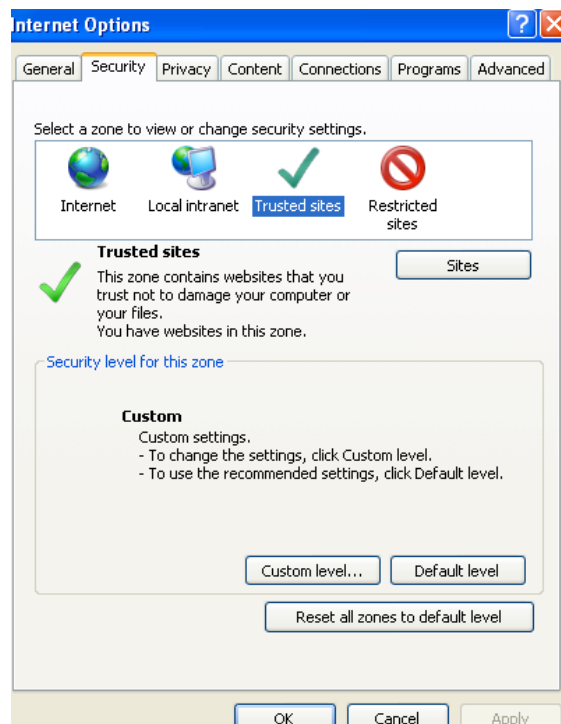

Firstly, open up your website in your browser (Internet Explorer).

Select tools from the browser menu

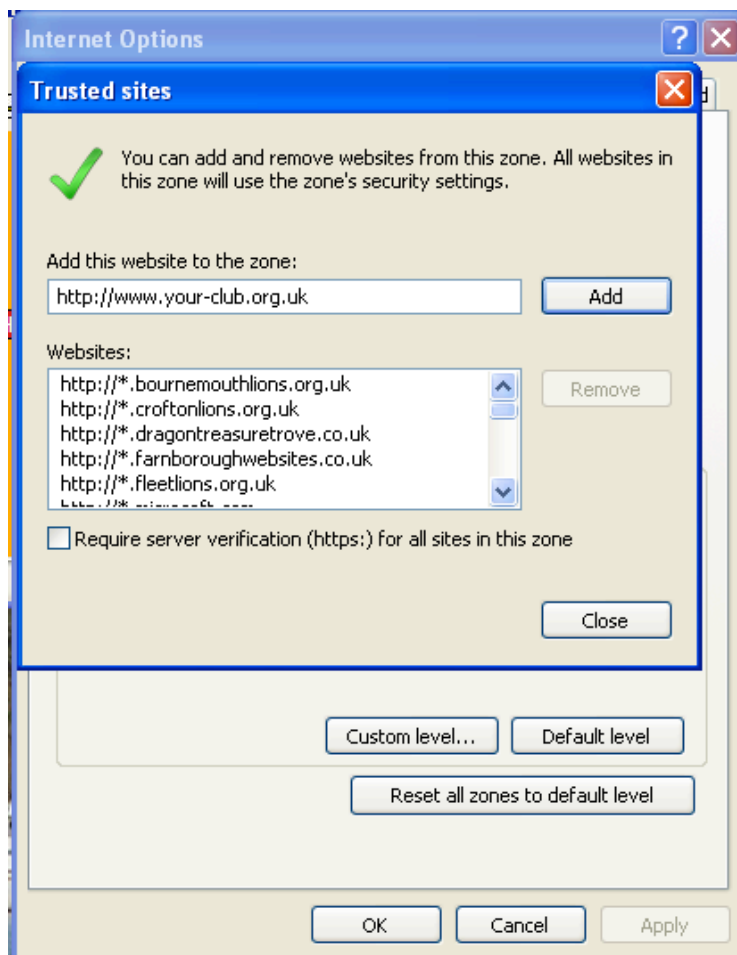

Select **Internet Options**

Now select **Security**

Click on **Sites**

Your club's website will be identified in the field **Add this website to the zone:** Check that the little box called **Require server verification (https): for all sites in this zone** is not ticked (click on it if it is to toggle-off the tick)

Click on Add.

Assuming no alert box appears you can now click on **Close** and then **OK**.
